

U.S. Trade Associations

U.S. Trade Associations

Newmont is a member of, and pays dues to, various organizations in the U.S. and abroad. Some of these trade associations engage in lobbying activities on behalf of the mining industry, or segments of the mining industry, and also may, either directly or through political action committees, provide contributions to political candidates or causes where permitted by law. Newmont does not control the manner in which trade organizations use any funds contributed by Newmont, and does not necessarily support all of the individual initiatives and activities engaged in by these trade associations, but believes that, in general, their activities promote the success of the industry and Newmont's business.

A list of those United States trade associations for which that portion of Newmont's dues attributable to political activities exceeded \$50,000 in 2017 can be found below:

Trade Association	Political Expenditures ¹
National Mining Association	\$116,163.75
Nevada Mining Association	\$64,294.50

¹ In order to provide transparency, Newmont has asked the trade associations to which it belongs to report the percentage of Newmont's contributions that are used for lobbying or political purposes. If the portion of such dues used for lobbying and political contributions is noted as N/A - the organization has not yet made such breakdown available to Newmont.
