

Newmont Policy Influence

2018 Trade Association Memberships

U. S. Trade Associations

Newmont is a member of, and pays dues to, various organizations in the U.S. and abroad. Some of these trade associations engage in lobbying activities on behalf of the mining industry, or segments of the mining industry, and also may, either directly or through political action committees, provide contributions to political candidates or causes where permitted by law.

Newmont does not control the manner in which trade organizations use any funds contributed by Newmont, and does not necessarily support all of the individual initiatives and activities engaged in by these trade associations, but believes that, in general, their activities promote the success of the industry and Newmont’s business.

2018 mining association dues with a percentage of membership fees attributable to political advocacy in excess of \$50,000 are shown in the table below.
